To determine what Roll Size will fit into this headbox first calculate Roll Diameter. A Roll Diameter calculator is provided on our website on the Tools page, or use the Max. 3" Diameter as is shown. Calculate Roll Projection from the top of the headbox by adding half of the Roll Diameter to the bracket centerline above. The above example projects 3.1" (3"/2 = 1.5" + centerline of 1.6" = 3.1").
